

# Stretch Hood Film

PE Stretch Hood Film for appliance, building material, processed food, beverage, industrial salt, mineral, chemical, petrochemical, and similar markets

## 100% Recyclable Stretch Hood Film

INDEVCO Plastics manufactures a 100% recyclable Stretch Hood Film which uses optimal gauge for maximum load stabilization while allowing for raw material source reduction.

Stretch Hood Film tightly secures products for easy palletization for high-speed lines using automated pallet packaging systems. Stretch Hood Film keeps loads in warehouse and in transit covered against dust, dirt, and moisture with its superior seal strength and elastic recovery for high trauma movements. any product tampering with the Stretch Hood Film's excellent tear and puncture resistance for five or even six-sided protection.

The transparent film allows for high brand visibility and lets product codes be scanned without the need to open the pallet, making logistics easy. With a max film circumference of 204" and an engineered stretch ratio of up to 160%, Stretch Hood Film is strong and adaptive enough to palletize large loads with ease. Custom film clarity and printing are also available for Stretch Hood Film.

## A Sustainable Packaging Choice

### 100% Recyclable

This packaging can be entirely recycled to reduce waste going to landfill

sustainability goals

# Specifications

## FILM SPECIFICATIONS

Material	PE
Film Circumference	15" – 102"
Stretch Ratio	Up to 160%
Gauge	2.0 mil – 5.0 mil

## ROLL DIMENSIONS

Core Options	Fiberboard & PVC
Inner Core Diameter	3" or 6"
Min. Roll Diameter	20" or custom
Max. Roll Diameter	48"

## OPTIONAL FEATURES

- Videojet Printing: 1 color – 4"x4" available print area
- UV Inhibitor 1-year protection

## Let's Get In Touch

Our team of experts work to show our customers how making the switch to Stretch Hood Film will reflect faster line speeds, fewer roll changes, and reduced energy consumption.

# Product Features

## MAXIMUM PRODUCT PROTECTION

Protect products with five-sided or six-sided protection for palletized products, ensuring that branded products stay dry and protected against environmental factors like ultraviolet radiation, weather, water, dust, and dirt.

## HIGH STRETCH, SECURE PRODUCT

Stabilize products effectively when palletizing by using Stretch Hood Film. With a stretch ratio up to 160%, Stretch Hood Film can fully surround product in one pass. Stretch Hood Film is comprised of resin blends to increase load stability, abuse resistance, and elastic recovery.

## DISPLAY PROPERTIES

View palletized products with ease using clear Stretch Hood with the best clarity ratings, as opposed to cloudy and opaque pallet packaging offered by multiple layers of stretch film and stretch foil. Clear properties enable brand visibility, easy barcode reading, and tamper evidence. For customer convenience, Videojet print capabilities are available.

## LOGISTICS MANAGEMENT

Quickly secure product to pallets using Stretch Hood Film for automatic palletization. Full-sided coverage protects and tightly encloses products during transport and storage. From pallet to warehouse to the shelf, Stretch Hood will contain everything until the contents are ready to be unloaded.
